About the CME

Antibiotic resistance is one of the huge burdens in today's changing environment, due to newly emerging pathogens. The risk of developing antibiotic resistance in India is much higher in respect to the other developing countries. In addition to the financial burden and increase in mortality, it has profound impact on the delivery of health services too. A majority of this resistance can be largely preventable by Antimicrobial stewardship activity (AMSP).

Therefore, objective of the scientific sessions of the CME is to make aware about antibiotic resistance and its practical implementation in day to day life.

Dear Colleagues and Friends

The organizing committee is pleased to cordially invite you to the CME on “Antimicrobial Resistance-2019” being organized at All India Institute of Medical Sciences, Jodhpur.

About Jodhpur

Jodhpur "The Sun City" was founded by Rao Jodha, a chief of the Rathore clan, in 1459. It is named after him only. Jodhpur in Rajasthan, India was previously known as Marwar. Jodhpur is the second largest city in Rajasthan. It is divided into two parts - the old city and the new city. The old city is separated by 10 km long wall surrounding it. Also it has eight Gates leading out of it. The new city is outside the walled city.

The city is known as the “Sun City” for the bright, sunny weather it enjoys all the year round. It is also referred to as the “Blue City” due to the vivid blue-painted houses around the Mehrangarh Fort. The old city circles the fort and is bounded by a wall with several gates. Jodhpur’s attractions include Mehrangarh Fort, Umaid Palace, JaswantThada, GhantaGhar (Clock Tower) and Flying Fox (Mehrangarh Fort). Tourists can make excursions to Mandore, Kaylana Lake and Palace, Masooria Hills, Veer DurgadasSmarak (monument, park and museum), BhimBhirak Cave.
