

COLLABORATORS

AIIMS JODHPUR

AIIMS J envisions to foster innovative collaborations for the welfare of the mankind. As a medical institute and research center it is committed to support deep tech entrepreneurs.

IIT JODHPUR

Powered by its vision of being a future-driven institute for nurturing excellence of thought, IIT J has created an innovation ecosystem that serves multiple stakeholders from students, faculties to startups.

IIT ROPAR

The institute addresses the technology gap between research labs and commercial products. IIT Ropar supports projects that would validate the commercial potential of a technology and projects that serve the immediate technological needs of the nation in general and the regional industry in particular.

PGIMER CHANDIGARH

To establish an innovation and entrepreneurship ecosystem in medical colleges and institutes, fostering a pipeline of healthcare innovations, including medical devices and diagnostic products

MEDICAL INNOVATION & BIOMEDICAL INSTRUMENTATION WORKSHOP AIIMS JODHPUR

Objectives

- Encourage and cultivate a culture of entrepreneurship within AIIMS J.
- By bringing together faculty members, potential founders, investors and industry experts, we aim to inspire and support the faculty in exploring entrepreneurial ventures and translating their innovative ideas into viable startups.
