Invitation

Dear Friends,

It's a great pleasure to invite you to the 1st Rajasthan Chapter of Indian Academy of Tropical Parasitology (IATP)- 2016 to be held on 2-3rd, September-2016, organized by the Department of Microbiology, AIIMS, Jodhpur with the theme "Current Trends in Parasitology: Clinical, Diagnostic and Management Challenges".

The main objectives of the Rajasthan Chapter is to bring together all the experts of different specialties in this field, giving them the opportunity to share their research experiences & knowledge in different aspects of parasitology. The content of the program is targeted for faculties, scientists, researchers, residents and students.

On behalf of the Organizing Committee, I cordially invite you all to actively participate in this pioneering event and share your experiences through invited lectures, oral papers, panel discussion, poster presentations, Quiz & discussion with the experts.

We look forward to see you in the sun city Jodhpur.

Dr. Vijaya Lakshmi Nag
President of Rajasthan Chapter of IATP

Message from IATP

Dear Friends,

It's our pleasure on behalf of entire fraternity of Indian Association of Tropical Parasitology to welcome you all to the 1st Rajasthan Chapter of Indian Academy of Tropical Parasitology (IATP) being held at Department of Microbiology, AIIMS, Jodhpur on 2nd -3rd September 2016. We congratulate Dr. Vijaya Lakshmi Nag for their initiative. Parasitic diseases are now emerging as major public health problem, throughout the World, including India.

We are very much confident that chapter will prove an excellent platform for professional interaction among all the medical microbiologists and Parasitologists working in various medical colleges and research institutes across Rajasthan. This will promote exchange of ideas and research interest in parasitic disease of public health importance. We extend our best wishes to the organizers and participants for the success of this event and hope that deliberations in this Conference will contribute significantly towards the advancement in the knowledge and research in this field of Parasitology.

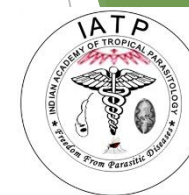

Prof. SC Parija
President, IATP

Prof. Ujjala Ghosal
Secretary, IATP

1st Rajasthan Chapter of Indian Academy of Tropical Parasitology - 2016

2-3rd September 2016

Announcement and Call for Abstracts

Under aegis of

Indian Academy of Tropical Parasitology

Theme: "Current Trends in Parasitology: Clinical,
Diagnostic and Management Challenges"

Venue

College Building,
All India Institute of Medical Sciences,
Jodhpur

Organized by

Dr Vijaya Lakshmi Nag
President of Rajasthan Chapter of IATP
Professor & Head
Department of Microbiology
All India Institute of Medical Sciences
Jodhpur –342005, Rajasthan

Scientific Sessions

- ❖ Guest Lectures
- ❖ Oral presentation
- ❖ Poster presentation
- ❖ Quiz
- ❖ Panel discussion
- ❖ Key note address
- ❖ Presidential Talk

Abstract Submission Guidelines

- ❖ All abstracts must be written in English.
- ❖ The topic should be relevant to Microbiology.
- ❖ Abstracts should be no longer than 250 words and have the format: Background, Objectives, Methods, Results and Conclusion.
- ❖ Pictures, tables and charts within the abstract text are not allowed.
- ❖ Last date of abstract submission is 15th of August, 2016.
- ❖ All abstracts submitted for oral / poster presentation will first be reviewed for acceptance .
- ❖ The abstract for the poster / oral presentation must be sent in soft copy to email id cmemicroaiimsj@gmail.com.
- ❖ Notification will be sent by 20th August 2016.

Registration Fees

Category	Residents	Faculty members
Early bird Registration (till 15/08/16)	Rs 1000	Rs 1500
Late registration (till 25/08/16)	Rs 1200	Rs 1700
On Spot Registration	Rs 1500	Rs 2000

DD to be drawn in favor of "Organizing Secretary, Rajasthan chapter of IATP" payable at Jodhpur, Rajasthan

Registration fee is non-refundable / non-transferable.

Rajasthan chapter IATP

Although recent advances in medical science has led to successful outcome of organ transplantations and treatment of advanced cancers, there has been regular emergence of different opportunistic parasitic infections. These are one of the major causes of morbidity and mortality in a tropical area. The knowledge regarding these agents have become the need of this hour. Since there is an absence of any society especially dedicated to the field of Parasitology in our area, Department of Microbiology, AIIMS, Jodhpur has taken the initiative in the formation of a society "Rajasthan chapter IATP" under the aegis of Indian Academy of Tropical Parasitology (IATP).

1st Rajasthan Chapter of IATP will provide a common platform for microbiologist, parasitologists, infectious disease specialists and clinicians to come together and discuss the latest advances for better patient care, teaching and research as well as important issues relevant to parasitology.

THEME

"Current Trends in Parasitology: Clinical, Diagnostic and Management Challenges" will focus on newer advances in the field of medically important and neglected parasitic infections. This is an exciting opportunity for delegates to network, share and update their knowledge in the areas of Tropical Medicine, Parasitology, Infectious Diseases, Zoonoses and more. The eminent speakers in field of Parasitology from premier Institutions will deliver their talk and will share their experiences.

Topics for speakers:

1. Acanthamoeba infection: newer approaches in diagnosis and management
2. Opportunistic parasitic infection in immunocompromised host.
3. Echinococcal Infection of Hepato Pancreatic biliary system: clinical prospects & management.
4. Malaria vaccine: advances and challenges in development.
5. Leishmaniasis: epidemiology and recents in diagnosis and management.
6. Intestinal parasitic infections clinical implications and management.
7. Filariasis: updates in diagnosis and management.
8. Need for achieving better diagnosis: quality control in Parasitology laboratory.
9. Molecular diagnosis for faecal parasites: risks & alternatives.
10. Drug resistance in severe malaria.
11. Neglected parasitic infections need and opportunities.
12. Coproantigen and parasitic infections- where and when are they required?
