Ref: Order No. 04/Emerg. Med/M & M (Plan)/2018-19 dated 20.06.2018

Kind Attn: Department of Emergency Medicine.

Sir,

On the onset we thank you for showing the confidence in our device and placing the above referred order with us.

However here we take this opportunity to request for a rectification in the order with regard to the pack size of the consumable quoted along with the device.

Since the order copy placed by Max Hospital, Patangpura was submitted along with the papers, small mistake which appeared in their order copy could get carry forward and the same mistake got repeated in the Proforma Invoice and subsequently in the order placed.

The standard pack size is of 1 gallon and not 3 gallons as mentioned in the order which would require the rectification.

In this context please find enclosed the communication with the Max Hospital carried out in January 2017 and subsequently the amendment issued by them.

As per discussion the washes per bottle would remain at approx. 800 and the size of the bottle as per the specifications of the device and the designed compartment for the consumable. The rectification does not create any material change in the performance of the device under consumable.

In view of the above, we would request you to kindly issue the amendment to enable us to install the device at the earliest.

Inconvenience is regretted.

Regards
