Online Education

1. Does all programs/courses were completed on time.	Yes
--	-----

2. Measures taken to complete the syllabus of courses and programs.	<p>Post declaration of nation-wide lockdown by the Government of India in the third week of March, undergraduate students at our Institute were requested to proceed to their homes for safety reasons with suspension of physical classroom teaching on 18th March 2020 in three Phases.</p> <p>Our institute suspended in person teaching activities in accordance with government directives regarding nation-wide lockdown. Students were requested to proceed to their homes taking due precautions and classes were shifted to online mode so as to continue distant learning during the lockdown phase. We have divided our experience into three phases</p> <p>1. Phase I: Inception (last week of March 2020) Faculty orientation and training was another important aspect towards the successful initiation of the plan. Paucity of time, large number of faculty members (more than 200) and need for physical distancing in COVID times precluded organisation of an extended & well-structured training program. This lacunae was overcome by a live demonstration of the online platform conducted for all faculty members. The working of the platform was explained in detail followed by brainstorming and discussion of doubts regarding the same. In addition, short videos and standard operating procedures of the platform explaining the operationality were made and shared. With students and teachers on board, the online classroom commenced on 23rd March 2020.</p> <p>2. Phase II: Implementation (from last week of March till last week of May) While it was relatively easy setting up the online classroom, ensuring student engagement while keeping sessions short and crisp were monumental to the venture's success. Undergraduate and Postgraduate teaching continued at AIIMS Jodhpur via Google Classroom. The online teaching was streamed to other medical colleges simultaneously. The Institute enjoys an excellent IT infrastructure. Online sessions were structured to ensure a judicious mixture of didactic lectures, Practical's demonstration and case discussions and replication of student-teacher interaction. This was coupled with online assignments with a dedicated time frame. The system was student centric and user friendly with encouraging feedback from students. Reverse Telemedicine was used as an effective tool wherein the patient was in the ward and students were in the hostel/Homes during lockdown for better clinical exposure.</p> <p>3. Phase III: Upscaling (from first week of June till date) Post successful institutional implementation of the program, an outreach program was formulated. Proposals were sent to other medical institutes inviting them to join the daily education feed being served at the institute. Four new medical schools who faced constraints in starting online delivery mode of education registered to join our online feed. AIIMS Jodhpur prepared a strategy for recalling the students back in a staggered manner wherein those who had to appear in examinations were called first. While safety of students was the top priority, the aim was to continue develop skills through practical, encourage contextual learning environment. With two COVID tests one week apart. After the end of isolation, students were brought to practical labs and wards using 15 minutes contact limitation as per CDC guidelines.</p>		
3. The period of delay in completion of syllabus (in months).	0		
4. The period of delay in conducting exams (in months).	0
